

# The Top 10 Things Spiritual Medium Carmel Joy Baird Says You Need To Know Immediately!

## 1. WE ARE ALL HERE TO LEARN LIFE LESSONS.

Carmel truly believes that. So, if everyone in your life right now was good ...what would you learn? Nothing! That means someone must be the bad guy or play your adversary in life. So instead of waiting to get to heaven to know that, know that now so that you can forgive and enjoy your life here while you have it.

## 2. EVERYONE'S HEAVEN IS DIFFERENT, BUT YET, WE ARE ALL TOGETHER.

My heaven may have horses, yours may have bright lights and Broadway plays, but heaven is the things and people we love the most. What will your heaven be? What makes you most happy? Your heaven will be that.

## 3. LIFE IS SHORT.

Honestly, tomorrow you could get hit by a bus. I know you may think that's extreme, but I know at least 4 spirits who did indeed pass away that way. One day you're here and one day you're not. It's a classic human thing to leave things unsaid, withhold forgiveness and waste time working, cleaning, or doing things that truly aren't important. If this is your last day, how do you want to spend it?

## 4. HEAVEN IS NOT AS FAR AWAY AS YOU THINK.

You think it's up in the clouds but think of it more like a 2-way mirror. You can't see them, but Spirits can all see us. (Well, I can see them also, but I'm a Medium.)

## 5. THERE IS NO SICKNESS, EGO, HATE, DISEASE, ANGER, REVENGE, JEALOUSY, OR ANY OF THAT BAD JUJU IN HEAVEN.

Everything comes from a place of love and light. And ...everyone goes to heaven. Yup, because remember we are all here playing the game of life, and someone must be the bad guy for us to learn. So, you picked your soul family before they came and already decided who was going to teach you those life lessons. True story. You may need to let that one sink in a little. (I know I did)

## 6. SPIRITS ARE SENDING YOU SIGNS ALL THE TIME

Think of it like this. If you were in a house on the top floor and your loved one was underneath that floor. You could never see each other again but you knew that each other was there. Of course, you would send signs. You'd be shutting off breakers, banging on the walls, and ceiling. You would totally figure out morse code so you could talk. Spirits are the exact same way. They want you to know they are around you and with you all the time. So please don't second guess the coin, the bird, the song, the feather ...you name it. They send it!

## 7. SPIRITS HAVE NO EGOS SO NOPE ...

They aren't hanging in your room while you have sex or hanging in the shower with you. They don't see things the same way anymore. So, no worries, you can still get hanky panky and Mom and Dad won't see. Lol

## 8. I DO NOT BELIEVE IN GHOSTS.

Now ...this may need a bigger explanation but think of it this way. I think we all go to love and light and what's here being labeled as ghosts haunting places, I think is negative energy that turns into negative entities. So, in a nutshell... man created it and only man can remove it. Aboriginal people knew this a long time ago and created smudging ...get that crap out of here!

## 9. YOU CAN BE SPIRITUAL AND STILL SAY SWEAR WORDS.

It's the craziest thing. People go on their big spiritual journey and find their gifts and intuition and think they have to be perfect. Nope, remember we still have egos, and we can still stub our toe and swear or have a human reaction because we are human. And that my friends means do the best you can with the knowledge you have at the time, and when you make a mistake...do better next time.

## 10. THE ANSWER TO YOUR QUESTION IS YES.

We are all Mediums, we are all psychics, we are all capable of communicating with Spirits on the other side. Some of us are born with the gift and kept it on the entire time (usually because of trauma). Some of us have to re-learn what we forgot and some of us actually have to work really hard to develop these gifts, but the truth is we all have this ability. If you want to develop your gift, I'm very passionate about helping others. I don't like that I was so lost for so long so it's my mission to help others.

There you have it! 10 things I think you need to know right away and that I think will change your perspective on things and hopefully help you to understand that the most important thing is ...

**LIVE YOUR BEST LIFE AND BE IN EVERY SINGLE MOMENT YOU CAN.**
